

Yamaha S90 ES Multi Part Editor V2.2.2 for Windows

Release Notes

Thank you for using Yamaha products.

S90 ES Multi Part Editor for Windows (henceforth referred to as “Editor”) is a utility software program for the S90 ES. When the S90 ES is used in Multi mode, the software can be used to visually edit various parameters such as Part parameter (Volume, Pan, EG, Cutoff) and effects.

You can send the edited data to the S90 ES, as well as read data from the S90 ES for editing.

This software can be used on its own as an independent editor, as well as with DAW software that is compatible with Studio Connections and the Recall feature.

Before installing:

Ensure that the latest Studio Manager is installed on your computer.

How to check the current version:

After starting up the Editor, go to the [HELP] menu -> [Version Information].
